GET SMART !

Disaster professionals say the most important thing we can do is be prepared to survive for AT LEAST 72 hours in our homes. This first line of defense, called "Shelter in Place," will save the most lives. To help you prepare, the Kentfield Fire District is offering a two-hour course to teach you what to do before, during and after a disaster.

GET TRAINED !

That's all it takes – two hours. You owe it to your family. You owe it to your neighbors.
