

faith, knowledge and service

11 May 2017

Dear Neighbors,

As you know, Marin Catholic has been engaged in a process for some time to bring stadium lights to our campus. Throughout this effort, we have had many in-depth discussions with our neighbors, the County, and other important stakeholders regarding the project and its purpose.

As a result of these discussions, we realize that we have more work to do on our proposal. Therefore, we have decided to withdraw our current application.

The heart of the lights project is about creating new opportunities for our high schoolers to play the sports they love. We continue to believe that lights can solve the growing problem of inadequate field space during the fall and winter months. However, we plan to conduct more internal analysis on how to implement this solution for our student athletes while being responsive to the valid concerns of some of our neighbors.

Clearly, there is a great deal of passion among those who are supportive of the lights and those who are not. Our goal moving forward is to find the right balance by continuing to listen and engage with each of our neighbors.

Kindest regards,

Tim Navone
President
